

Line Card

Air-Vac Engineering - SMT rework, thru-hole soldering/de-soldering equipment, high-precision assembly cells. • air-vac-eng.com

Austin American Technology - Inline and batch aqueous/solvent cleaning equipment. • aat-corp.com

BTU International, Inc. - Thermal Processing Solutions: reflow ovens and high-temp furnaces. • btu.com

Cencorp - PCB de-paneling, laser marking and odd-form robotic assembly & automation. • cencorpautomation.com

ChemCubed - ElectroJet 3D additive PCB printers and conductive/dielectric printing materials. • chemcubed.com

Creative Electron - X-ray component/parts counters. • creativeelectron.com

Fine-Line Circuits, Ltd. - ISO certified manufacturer of high complexity, high quality PCBs. • finelineindia.com

Hepco - Component forming and BGA re-balling equipment. • hepcoblue.com

IAC Industries - Industrial workstations, workbenches & seating. • iacindustries.com

MBTech - Batch aqueous cleaners for PCBs, stencils and equipment maintenance. • mb-tech.us

Mycronic - SMT pick & place, high-speed solder paste “jet” printing, Component storage towers. AOI (automatic optical inspection) and SPI (solder paste inspection) equipment. Conformal coating and dispensing equipment. • mycronic.com

Nikon Metrology - X-ray/CT inspection systems. • nikonmetrology.com

Plasmatreat - “Openair” plasma treatment equipment for cleaning and surface activation prior to bonding & coating processes. • plasmatreat.com

RPS Automation, Inc. - Selective solder machines, lead tinning & solder ability testing equipment. • rpsautomation.com

RS Simmons Co., LLC - SimmScope manual optical inspection system. • rssimmons.com

Seica - Flying probe & fixture-based ICT and functional test equipment, laser selective soldering. • seica.com

Sono Tek - Ultrasonic spray fluxers. • sono-tek.com

Tagarno A/S - Digital microscopes with a wide-range of configurations and features. • tagarno.com

Totech - Super Dry – temperature/humidity-controlled component storage cabinets. • superdry-totech.com

Zestron - Cleaning chemistry for PCBs, semi-conductors, stencils and reflow oven/wave solder maintenance. • zestron.com
